

...To Make the Best Better.

Welcome to 4-H, the largest youth organization in the world. In Arizona, you are among the 17,000 young people and 2,400 adult volunteers who will learn, grow and have fun in 4-H this year.

4-H is for all kids, no matter whether they live in cities, towns, or rural areas, no matter what their race, religion, sex, or disability. It's part of the University of Arizona, so programs are based on University research about kids and learning. Inside, you'll find information on the most often utilized projects in Yuma County, but if there is a project that you are interested in that isn't listed, just give us a call and we can see if that is offered. You can sharpen your public speaking skills, travel to other states, help your community solve problems, or explore new directions for your career and lifestyle.

For those of you who are new to 4-H and even for those of you who have been involved previously, you will find out that the 4-H Clover Connection is our monthly newsletter, is your best source of information. It will have all clinics, meetings, workshops and events in the calendar section. Everything mentioned in the newsletter is open to everyone, regardless of club or project, so don't be afraid to get involved!

ANIMAL SCIENCE

Beef Projects

Learn how to select, feed, care for, show and keep records on your beef animal(s).

- 74010 Market Beef
- 74030 Production Steer

Leaders: Danette Jordan	Cell: 581-8687	E-Mail: somertonlady@hotmail.com
JC Garcia	Cell: 750-2559	E-Mail: JOANNBKR@GMAIL.COM
Lexi Cavenee	Cell: 581-9635	E-Mail: acavenee@aol.com

Birds and Poultry Projects

Learn to properly care for, judge, and manage any of the following birds and poultry.

- 75100 Poultry (Chickens)
